AFRICAN AMERICAN STUDIES

Bachelor of Arts

Berkeley
UNIVERSITY OF CALIFORNIA

INTRODUCTION TO THE MAJOR

African American Studies exposes students to the social political, and cultural history of African-descended people in the modern world. While its primary focus is on the United States, the program places African Americans within a broader global dialogue about the evolving function of race.

The Department of African American Studies offers a major and minor in African American Studies, as well as a joint minor in **Race and the Law** with the Department of Ethnic Studies.

“ I initially sought out this major in an attempt to learn more about myself. In turn, I actually found myself, I found knowledge, I found the world, and I found peace. ”

– Kristin Therese Jones, African American Studies & Rhetoric major

THE MAJOR CURRICULUM

Along with three lower division courses, students in the African American Studies major will complete eight courses focused on black intellectual thought, colonialism and slavery, and research. Additionally, each student will work with their advisor to choose a concentration area. Students will also complete a senior capstone course that guides majors in the process of consolidating their intellectual experience as they work toward carving out the next stage of their professional lives.
