**INTRODUCTION TO THE MAJOR**

The Global Studies major allows students to explore interactions between states, societies, and cultures and their outcomes. Students pursuing an undergraduate degree in global studies will engage in thinking critically about how global change has (and can) come about during the course of their lifetimes. Students focus on issues relevant to them in a way that provides intellectual flexibility.

A major and minor in Global Studies is offered by the Interdisciplinary Social Sciences Program, which also offers a major and minor in Political Economy as well as the Human Rights Interdisciplinary minor.

**THE GLOBAL STUDIES CURRICULUM**

Students pursuing the Global Studies major select one of three concentrations: (1) Global Development, (2) Global Peace and Conflict, or (3) Global Societies and Cultures. Students also choose one of five regions (Asia, Africa, Europe/Russia, The Americas or the Middle East) in which to specialize, both in terms of content and language. Students work with Global Studies faculty and advisors to devise a program that best captures their interests and allows them to reach their intellectual and professional potential.
